The new banking system that has made electronic banking (i.e. cards) more reliable and up to date, along with the increasing challenge to staff the offices and still provide affordable financial services have been the major contributors to the change. We feel that we need to keep up with the growing requirement for more convenient electronic service so there will be Automated Tellers installed at both branches in October 2009. We apologize for any inconvenience that these changes may cause but feel it is necessary to continue to look to the future.
